Concise Human Physiology From Wiley-Blackwell

Concise Human Physiology is a multi-authored text specifically prepared for students of medicine and the allied health sciences in developing countries. The text has been carefully structured and written so as to be accessible - simple vocabulary is used and sentences are clear and concise. A careful and balanced integration of basic sciences and clinical medicine is achieved and clinical problems encountered in developing countries are given special attention throughout. All contributing authors to the text have had significant experience in teaching medicine and allied health science to students in developing countries. Each author has been selected for his/her expertise in a given specialty
