

Java WebSocket Programming (Oracle Press)

By Dr. Danny Coward

Java WebSocket Programming (Oracle Press) By Dr. Danny Coward

Master Application Development with Java WebSocket

Build dynamic enterprise Web applications that fully leverage state-of-the-art communication technologies. Written by the leading expert on Java WebSocket programming, this Oracle Press guide offers practical development strategies and detailed example applications. *Java WebSocket Programming* explains how to design client/server applications, incorporate full-duplex messaging, establish connections, create endpoints, handle path mapping, and secure data. You'll also learn how to encrypt Web transmissions and enrich legacy applications with Java WebSocket.

- Develop Web applications using the Java WebSocket API
- Create and publish annotated and programmatic endpoints
- Manage the lifecycle events of WebSocket endpoints
- Maintain reliable connections across the endpoint lifecycle
- Manage synchronous and asynchronous messaging
- Define encoding and decoding strategies for complex messaging
- Configure message timeouts, size limits, and exceptions
- Map message paths and route incoming URIs to Web containers
- Secure data, authenticate users, and encrypt connections

Editorial Review

About the Author

Danny Coward is a Chief Architect and Web Architect at Oracle. He is the Specification Lead for the Java API for WebSocket for Java EE and Java SE/JavaFX. Coward's work leading WebSockets at Oracle makes him the leading expert on Java WebSocket programming. Coward has specialized experience in all aspects of Java software?from Java ME to Java EE to the founding of the JavaFX technology.

Users Review

From reader reviews:

Robert Caceres:

Book is written, printed, or created for everything. You can recognize everything you want by a book. Book has a different type. As it is known to us that book is important issue to bring us around the world. Adjacent to that you can your reading skill was fluently. A reserve Java WebSocket Programming (Oracle Press) will make you to end up being smarter. You can feel considerably more confidence if you can know about every thing. But some of you think that will open or reading a new book make you bored. It is not make you fun. Why they might be thought like that? Have you looking for best book or ideal book with you?

Anne Hernandez:

The book Java WebSocket Programming (Oracle Press) can give more knowledge and also the precise product information about everything you want. Why must we leave the great thing like a book Java WebSocket Programming (Oracle Press)? A number of you have a different opinion about reserve. But one aim which book can give many data for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or info that you take for that, you may give for each other; you are able to share all of these. Book Java WebSocket Programming (Oracle Press) has simple shape however, you know: it has great and large function for you. You can search the enormous world by open up and read a e-book. So it is very wonderful.

Pamela Prince:

This Java WebSocket Programming (Oracle Press) are usually reliable for you who want to certainly be a successful person, why. The main reason of this Java WebSocket Programming (Oracle Press) can be on the list of great books you must have is giving you more than just simple reading food but feed a person with information that probably will shock your preceding knowledge. This book is definitely handy, you can bring it everywhere and whenever your conditions both in e-book and printed ones. Beside that this Java WebSocket Programming (Oracle Press) forcing you to have an enormous of experience for instance rich vocabulary, giving you test of critical thinking that we know it useful in your day action. So , let's have it and revel in reading.

Suzanne Mitchell:

Reading a reserve tends to be new life style on this era globalization. With studying you can get a lot of information that may give you benefit in your life. Using book everyone in this world can certainly share their idea. Guides can also inspire a lot of people. Plenty of author can inspire their reader with their story as well as their experience. Not only situation that share in the publications. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors on this planet always try to improve their expertise in writing, they also doing some analysis before they write with their book. One of them is this Java WebSocket Programming (Oracle Press).
