### Editorial Review

#### Amazon.com Review

As in the case of James Redfield's *The Celestine Prophecy*, once in a while a book comes along that unexpectedly soars to the bestseller lists simply because it feeds a specific spiritual hunger. *Talking to Heaven* is one such book. Based on the personal insights and memories of highly acclaimed medium James Van Praagh, *Talking to Heaven* offers comforting and startling stories about his contact with the deceased. Van Praagh could have used this text to prove that his gifts as a medium are authentic--the story about the deceased teenager who led his parents to his murderer is impressive (the result was a murder conviction)--but instead, Van Praagh offers spiritual and psychological comfort to those grappling with the loss of a loved one. He also helps readers develop their own means of talking to heaven. Even those who aren't aching for contact with the deceased will find Van Praagh's down-to-earth discussions of karma, the afterlife, and spiritual guides fascinating.

#### From Library Journal

Lecturer, nationally known medium, and president of Spiritual Horizons in Los Angeles, Van Praagh conveys a strong message of the probability of life after death. He claims he is able to receive messages from dead loved ones and sees himself as a healer of grieving hearts. Here he tells moving stories of love and loss, and writes of relatives and friends of loved ones contacted who have left his sessions in peace, better able to understand the son who committed suicide or the relationship of AIDS in connection with the human race. Van Praagh claims everyone has an intuitive ability, and that with practice anyone can contact the "other side." He devotes a section to practicing meditation to open up that spiritual level. Written in a clear, honest style, this title captures the essence of mediumship. Recommended for public and academic libraries requiring basic information on this subject. ?Lisa S. Wise, Broome Cty.
