ActiveMQ in Action By Bruce Snyder, Dejan Bosanac, Rob Davies

Applications in enterprises need to communicate, most commonly done by messaging. Apache ActiveMQ is an open-source implementation of the Java Message Service (JMS), which provides messaging in Java applications.

ActiveMQ in Action is a thorough, practical guide to implementing message-oriented systems using ActiveMQ and Java. Co-authored by one of the leading ActiveMQ developers, Bruce Snyder, the book starts with the anatomy of a core Java message, then moves quickly through fundamentals including data persistence, authentication and authorization. Later chapters cover advanced features such as configuration and performance tuning, illustrating each concept with a running real-world stock portfolio application.

Readers will learn to integrate ActiveMQ with Apache Geronimo and JBoss, and tie into both Java and non-Java technologies including AJAX, .NET, C++, Ruby, and the Spring framework.

Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.

Editorial Review

About the Author

Bruce Snyder is a veteran of enterprise software development and a recognized leader in open source software. Bruce has experience in a wide range of technologies including Java EE, Enterprise Messaging and Service Oriented Integration. In addition to his role as a software consultant, Bruce is also an Apache Member, a co-founder of Apache Geronimo and a developer for Apache ActiveMQ, Camel, and ServiceMix. Dejan Bosanac is a software developer, technology consultant and author with deep expertise in integration and interoperability of Java and web technologies. Dejan spent a number of years in development of complex software projects, ranging from highly-trafficked web sites through enterprise applications. Rob Davies has over 20 years experience of developing high performance distributed enterprise systems and products for telcos and finance. He is a founder of the Apache ActiveMQ, Apache ServiceMix, and Apache Camel projects. Currently Director of Open Source Development at IONA, Rob was also a founder and CTO of SpiritSoft and founder and VP Product Development at LogicBlaze.

Users Review

From reader reviews:

Doris Seavey:

Book will be written, printed, or created for everything. You can realize everything you want by a guide. Book has a different type. As it is known to us that book is important factor to bring us around the world. Beside that you can your reading expertise was fluently. A guide ActiveMQ in Action will make you to become smarter. You can feel more confidence if you can know about everything. But some of you think that open or reading any book make you bored. It is not make you fun. Why they might be thought like that?
