**Managing Airports 4th Edition: An international perspective** By Anne Graham

*Managing Airports* presents a comprehensive and cutting-edge insight into today's international airport industry.

Approaching management topics from a strategic and commercial perspective rather than from an operational and technical angle, the book provides an innovative insight into the processes behind running a successful airport. This 4th edition has been fully revised and updated to reflect the many important developments in the management of airports and issues facing the aviation industry since the 3rd edition. The 4th edition features:

- New content on: coping with an increasingly volatile and uncertain operating environment, social media and other trends in technology, the evolving airport-airline relationship, responding to sustainability pressures and new security policies.
- New chapter focused solely on service quality and the passenger experience. This is to reflect the increasing need for airports to offer wide ranging and quality services to their diverse customer base to remain competitive and to achieve high satisfaction levels.
- Up dated and new international case studies to show recent issues and theory in practice. New case studies on emerging economies such as China, India and Brazil.

Accessible and up-to-date, *Managing Airports* is ideal for students, lecturers and researchers of transport and tourism, and practitioners within the air transport industry.

## **Editorial Review**

Review

**'Anne Graham's book should be essential reading for anyone working, analyzing, investing, studying or just generally interested in the airport industry. It is one of the few books dedicated to the topic of airport management at an international level and it manages to capture the key fundamentals of the industry in a clear and concise way. Many of the issues raised in the book are timely, important, challenging and controversial, and Dr. Graham analyses these in detail, providing the essential background and presenting the perspectives of the different players. Managing Airports has become a true classic of the airport industry literature.'** - *Dr. Rafael Echevarne, Director, Economics and Program Development, ACI World*

**'Managing Airports' status as "the top must read" for airport professionals, academics and researchers remains unaltered, especially with this new fourth edition. There have been significant changes in airport management since 2008, namely, the shifting balance of power towards emerging markets, increasing emphasis on service quality and enhancing the passenger experience and the airport having to cope with more challenging capital market conditions post-2008. All of these pressing issues have been incorporated in this new fourth edition. Readers will especially appreciate new chapters on airport operations and airport service quality which reflects the extent to which a growing number of airport operators have re- focussed in recent years on try to deliver an improved airport experience for their customers.'** - *Dr. Romano Pagliari Senior Lecturer, Department of Air Transport, Cranfield University*

About the Author

Dr Anne Graham is a Reader in Tourism and Transport at the University of Westminster, UK.
