### Editorial Review

From Publishers Weekly

Gray follows up his bestseller *Men Are from Mars, Women Are from Venus* with this sex manual for the 1990s. Using the same "advanced" techniques presented in his earlier book, now transferred to the bedroom, he advises partners how to achieve sexual satisfaction without frustrating each other, how to rekindle and maintain sexual passion without resorting to affairs, how to talk about sexual needs without turning each other off and much more. For those in a rush to the bedroom, virtually every paragraph is recapitulated in boldface one-liners. Although some of the material is old news (women require more foreplay and affection than men), much is cutting-edge. For example, women don't always desire orgasm, and therefore "quickies" can be enjoyable for both parties. But sorely lacking here is a discussion of safe sex in the age of AIDS and other sexually transmitted diseases. And despite the title, Gray here compares men to the sun and women to the moon rather than to Earth's planetary neighbors. \$250,000 ad/promo; 500,000 first printing.

From Library Journal

The author of the blockbuster *Men Are From Mars, Women Are from Venus*, Gray here attempts to explain how couples can have great sex and keep romance alive in a long-term, monogamous relationship. There is not much left to the imagination as Gray explains exactly what men and women should say and not say, what they should do, touch, lick, and more. As in his earlier books, Gray's metaphors lack grace, and his writing is far from polished. If you can see past his silly language, however, much of his advice is quite good.

Although the explicitness of his sexual descriptions may bother some, and his poor writing skills may bother others, Gray's book is a reasonable and useful title. And given his huge popularity, public libraries should have this on their shelves when he starts appearing on the talk shows. [With 2.6 million hardcovers of Gray's *Men Are from Mars...* in print, HarperCollins will release a Spanish-language edition of that book under their HarperLibros line this month.-Ed.]-Elizabeth Caulfield Felt, Washington State Univ., Pullman.

Gray's *What Your Mother Couldn't Tell You & Your Father Didn't Know* (1994) failed to match the success of its predecessor, the megaselling *Men Are from Mars, Women Are from Venus* (1992), so this time out, Gray titles his offering seemingly in hopes of stimulating brand-name recognition and, hence, consumer loyalty. Still, the antinomy of Mars and Venus, of masculine aggression and feminine absorption, of masculine flame and feminine smoldering, is apt when discussing the differences in men's and women's sexual response that underlie all Gray's advice on sustaining satisfying sexual relations. Also underlying his counsel, and making this guide different from many others as well as appealing to the new moral conservatism of the 1990s, are his endorsement of monogamy and his repeated assertion that "great sex is God's gift." In accordance with those emphases, Gray writes not so much of the "mechanics of sex" as of the "mechanics of making sure you have sex," and his chapters bear titles such as "The Joy of Quickies" and "How to Rekindle the Passion" as well as the more expected "How to Drive a Woman Wild with Pleasure." Gray's a plain, even pedestrian, writer, capable of talking about sex in a manner neither lubricious nor clinical, and that capability, along with the title, helps ensure that the half-million-copy first printing HarperCollins has ordered will, as they say, move. *Ray Olson*
