Sudden Death in the Young By Roger W. Byard

Determining the cause of death in children and young adults can pose considerable challenges. Professor Byard provides for the first time a complete overview of pathological aspects of sudden death in the young, from before birth to middle adult life. Highly illustrated with more than 800 colour figures, this third edition contains new sections on sexual abuse, pregnancy-related deaths and rare natural diseases, as well as expanded coverage of unexpected death in young adults up to the age of 30 years. Chapters are organised by systems and cover all aspects of natural death, as well as accidents, suicides and homicides. Supported by extensive referencing and numerous tables, the book can also be used as a practical autopsy manual. An encyclopaedic overview and analysis of sudden death in the young, this is a key text for pediatric and forensic pathologists, pediatricians, and lawyers and physicians involved in medicolegal cases.

Editorial Review

Review

"As in previous editions, the current third edition...reflects the enormous task undertaken by only one author. Undoubtedly, Byard succeeded again in delivering a high-quality, useful and - why not - enjoyable book that should be on the shelf of any paediatric and forensic pathologist. The book would also be an appropriate acquisition for the libraries of paediatricians, child protection teams, solicitors, barristers and coroners dealing with natural, suspicious or violent cases of sudden death in infancy, childhood or young age." Medicine, Science and the Law (2011), Marta C. Cohen, Children's Hospital NHS Foundation Trust

About the Author

Roger W. Byard is Marks Chair of Pathology, University of Adelaide and Senior Specialist Forensic Pathologist, Forensic Science SA, Adelaide, Australia.

Users Review

From reader reviews:

Mary Salas:

Book will be written, printed, or created for everything. You can know everything you want by a book. Book has a different type. As you may know that book is important issue to bring us around the world. Beside that you can your reading expertise was fluently.
