AutoCAD and Its Applications Comprehensive 2014 By Terence M. Shumaker, David A. Madsen, David P. Madsen, Jeffrey A. Laurich, J. C. Malitzke, Craig P. Black

AutoCAD and Its Applications - Comprehensive 2014 is a useful tool for both classroom instruction and independent study. The heavily illustrated text not only tells you how to use AutoCAD, it also shows you how to use AutoCAD. In addition to teaching AutoCAD, this text serves as a valuable resource once you begin a career in the drafting and design industry. Whether you are learning AutoCAD for the first time or updating your skills, this book is a must.

AutoCAD and Its Applications - Comprehensive 2014 combines two books into one. The Basics portion provides complete instruction in 2D drafting and AutoCAD tools. It features complete coverage of AutoCAD drawing and editing commands and additional topics, including dimensioning, parametric drafting, hatching techniques, dynamic blocks, layouts and plotting annotative objects, external references, and sheet sets. The Advanced portion provides detailed coverage of 3D modeling, including solid, surface, and mesh modeling. Thorough coverage of visual styles (shading), materials, lighting, rendering, and animation is also provided.

Editorial Review

Users Review

From reader reviews:

Joyce Burke:

What do you think about book? It is just for students because they're still students or it for all people in the world, the actual best subject for that? Only you can be answered for that concern above. Every person has different personality and hobby for each and every other. Don't to be compelled someone or something that they don't want do that. You must know how great along with important the book AutoCAD and Its Applications Comprehensive 2014. All type of book can you see on many options. You can look for the internet options or other social media.

David McMillian:

The book AutoCAD and Its Applications Comprehensive 2014 has a lot of information on it. So when you read this book you can get a lot of profit. The book was written by the very famous author. This articles author makes some research ahead of write this book. This specific book very easy to read you can get the point easily after looking over this book.

Scott Settle:

Are you kind of busy person, only have 10 or even 15 minute in your moment to upgrading your mind talent or thinking skill actually analytical thinking? Then you are experiencing problem with the book compared to can satisfy your short period of time to read it because all this time you only find guide that need more time to be study. AutoCAD and Its Applications Comprehensive 2014 can be your answer given it can be read by you actually who have those short time problems.

Estela Gillard:

What is your hobby? Have you heard which question when you got college students? We believe that that issue was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. So you know that little person including reading or as studying become their hobby. You have to know that reading is very important in addition to book as to be the thing. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You get good news or update with regards to something by book. Different categories of books that can you choose to adopt be your object. One of them is this AutoCAD and Its Applications Comprehensive 2014.
