Basic Chemistry (5th Edition) By Karen C. Timberlake

For courses in introductory, preparatory, and basic chemistry.

Engages First Time Chemistry Students

Basic Chemistry introduces students to the essential scientific and mathematical concepts of general chemistry. With accessible language and a moderate pace, the text is easy-to-follow for first-time chemistry students, as well as those hoping to renew their studies of the subject.

In the **Fifth Edition**, Bill and Karen Timberlake carefully develop core ideas while relating them to the possibility of future careers. The book guides students through basic chemistry problem solving with engaging visuals and a focus on developing the math skills necessary to be successful in the course. End of chapter questions strategically promote integration of cumulative ideas, allowing students to develop a strong foundation for learning chemistry and encouraging them to continue their studies in the field. The main objective in writing this text is to make the study of chemistry an engaging and a positive experience for students by relating the structure and behavior of matter to real life. This new edition introduces more problem-solving strategies, more problem-solving guides, new Analyze the Problem with Connect features, new Try It First and Engage features, conceptual and challenge problems, and new sets of combined problems.

Also available with MasteringChemistry™

MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Note: You are purchasing a standalone product; MasteringChemistry does not come packaged with this content. Students, if interested in purchasing this title

with MasteringChemistry, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

If you would like to purchase both the physical text and MasteringChemistry, search for:

0134074300 / 9780134074306 *Basic Chemistry Plus MasteringChemistry with eText -- Access Card Package, 5/e*

Package consists of:

- 0134177134 / 9780134177137 MasteringChemistry with Pearson eText -- ValuePack Access Card -- for Basic Chemistry, 5/e
- 013413804X / 9780134138046 *Basic Chemistry 5/e*

Editorial Review

About the Author

Karen Timberlake is a professor emeritus at Los Angeles Valley College and is a well-known and successful author. She taught GOB chemistry at LAVC and preparatory chemistry for several years at UCLA. She is the author of *Introduction to General, Organic, and Biological Chemistry*, 12e and *General, Organic, and Biological Chemistry: Structures of Life*, 5e.

Bill Timberlake is also a professor emeritus at Los Angeles Harbor College where he taught preparatory and organic chemistry for 36 years.

Karen Timberlake and Bill Timberlake are known for their accessible writing style, based on carefully paced and simple development of chemical ideas, suited to the background of preparatory students.

Users Review

From reader reviews:

Raymond Roth:

The book Basic Chemistry (5th Edition) can give more knowledge and information about everything you want. So just why must we leave a very important thing like a book Basic Chemistry (5th Edition)? Several of you have a different opinion about reserve. But one aim which book can give many data for us. It is absolutely right. Right now, try to closer together with your book. Knowledge or info that you take for that, you could give for each other; you can share all of these. Book Basic Chemistry (5th Edition) has simple shape but the truth is know: it has great and massive function for you. You can look the enormous world by open and read a reserve. So it is very wonderful.

Brandon Harmon:

The particular book Basic Chemistry (5th Edition) will bring you to the new experience of reading a book. The author style to spell out the idea is very unique. In the event you try to find new book to study, this book very suitable to you. The book Basic Chemistry (5th Edition) is much recommended to you you just read. You can also get the e-book in the official web site, so you can more readily to read the book.

Bernice Cofield:

The book Basic Chemistry (5th Edition) has a lot details on it. So when you read this book you can get a lot of advantage. The book was compiled by the very famous author. Tom makes some research ahead of write this book. This kind of book very easy to read you will get the point easily after reading this book.

Christina Almonte:

This Basic Chemistry (5th Edition) is completely new way for you who has attention to look for some information because it relief your hunger details. Getting deeper you on it getting knowledge more you know otherwise you who still having small amount of digest in reading this Basic Chemistry (5th Edition) can be the light food to suit your needs because the information inside this kind of book is easy to get by simply anyone. These books produce itself in the form that is reachable by anyone, sure I mean in the e-book form. People who think that in publication form make them feel tired even dizzy this book is the answer. So there is not any in reading a publication especially this one. You can find actually looking for. It should be here for you. So , don't miss it! Just read this e-book variety for your better life in addition to knowledge.
