### Dissecting Stephen King: From the Gothic to Literary Naturalism (A Ray and Pat Browne Book) By Heidi Strengell

In a thoughtful, well-informed study exploring fiction from throughout Stephen King's immense oeuvre, Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage. Tapping into the wellsprings of the gothic to reveal contemporary phobias, King invokes the abnormal and repressed sexuality of the vampire, the hubris of Frankenstein, the split identity of the werewolf, the domestic melodrama of the ghost tale. Drawing on myths and fairy tales, he creates characters who, like the heroic Roland the Gunslinger and the villainous Randall Flagg, may either reinforce or subvert the reader's childlike faith in society. And, in the manner of the naturalist tradition, he reinforces a tension between the free will of the individual and the daunting hand of fate.

### **Editorial Review**

#### Review

"Meticulously researched and argued, Strengell's work offers original insights on King's treatment of gender and sexuality, his use of Gothic tropes and themes, and the literary and mythological influences he has freely adapted. This book is particularly valuable as a resource for defining King's place as a specifically American artist."- Tony Magistrale, University of Vermont, author of "Hollywood's Stephen King" and "Landscape of Fear: Stephen King's American Gothic", recently reissued by the University of Wisconsin Press.
