Editorial Review

About the Author

Dr. Mohammadian has completed his Bachelor, Master and PhD in Computer Science in Australia. He is currently a senior lecturer at the school of computing at the University of Canberra in Australia. He is a senior member of several professional (computing and engineering) organizations. He is also currently the vice chair of the Institute of Electrical and Electronic Engineering (IEEE) ACT section. His research interests lie in Intelligent and adaptive systems, Intelligent Agents, fuzzy logic, genetic algorithms, neural networks and their applications in information retrieval, data mining, industrial automation, financial and business problems which involve real time data processing, planning and decision making. He is a member of over 30 international conferences and he has chaired several international conferences in intelligent agents and computational intelligence. He was the chair of the 2001 and 2003 International Conference on Intelligent Agents, Web Techno! logies and Internet Commerce.

Users Review

From reader reviews:

Donna Beckman:

What do you ponder on book? It is just for students because they're still students or it for all people in the world, what the best subject for that? Only you can be answered for that issue above. Every person has distinct personality and hobby for every other. Don't to be forced someone or something that they don't wish do that. You must know how great as well as important the book Intelligent Agents for Data Mining and Information Retrieval. All type of book are you able to see on many resources. You can look for the internet options or other social media.

Mike Huey:

In this 21st one hundred year, people become competitive in every single way. By being competitive today, people have do something to make these individuals survives, being in the middle of typically the crowded place and notice through surrounding. One thing that often many people have underestimated the item for a while is reading. That's why, by reading a publication your ability to survive increase then having chance to stand than other is high. For you who want to start reading a new book, we give you this specific Intelligent Agents for Data Mining and Information Retrieval book as basic and daily reading e-book. Why, because this book is more than just a book.

Zachary Foushee:

Now a day individuals who Living in the era exactly where everything reachable by connect to the internet and the resources included can be true or not demand people to be aware of each info they get. How individuals to be smart in getting any information nowadays? Of course the solution is reading a book. Reading a book can help persons out of this uncertainty Information mainly this Intelligent Agents for Data Mining and Information Retrieval book since this book offers you rich facts and knowledge. Of course the information in this book hundred percent guarantees there is no doubt in it you know.

Judy Washburn:

What is your hobby? Have you heard which question when you got scholars? We believe that that question was given by teacher with their students. Many kinds of hobby, Every person has different hobby. Therefore you know that little person just like reading or as examining become their hobby. You need to know that reading is very important as well as book as to be the matter. Book is important thing to include you knowledge, except your own personal teacher or lecturer. You find good news or update in relation to something by book. Numerous books that can you choose to use be your object. One of them is this Intelligent Agents for Data Mining and Information Retrieval.
