Editorial Review

From School Library Journal

Kindergarten-Grade 3—McCarthy speaks directly to children who dream of someday "BLASTING into outer space," inviting them to experience astronaut school with four aspiring recruits. Painted in a cartoon style, the three men and one woman have large saucerlike eyes and off-center smiles. The book gives a very real picture of the arduous training required before going into space. Full-color spreads done in acrylics on gessoed paper show authentic facilities like a swimming pool, a jet, and the Vomit Comet (a plane ride that allows passengers to experience weightlessness). The text and illustrations are simply done, and their very sparseness highlights important stages in astronaut preparation. A space suit and toilet are shown against white backgrounds, and their parts are clearly labeled. The space-shuttle liftoff, painted vertically, and images of the smiling characters in space capture the excitement of this ultimate adventure. The author includes a page of fascinating facts as well as a list of places to visit. This appealing book is sure to find a wide audience.—*Mary Jean Smith, Southside Elementary School, Lebanon, TN*
