The Japanese Experience: A Short History of Japan (History of Civilisation)

By W. G. Beasley

The Japanese Experience is an authoritative history of Japan from the sixth century to the present day. Only a writer of W.G. Beasley's stature could render Japan's complicated past so concisely and elegantly. This is the history of a society and a culture with a distinct sense of itself, one of the few nations never conquered by a foreign power in historic times (until the twentieth century) and the home of the longest-reigning imperial dynasty that still survives. The Japanese have always occupied part or all of the same territory, its borders defined by the sea. They have spoken and written a common language, (once it had taken firm shape in about the tenth century) and their population has been largely homogeneous, little touched by immigration except in very early periods. Yet Japanese society and culture have changed more through time than these statements seem to imply. Developments within Japan have been greatly influenced by ideas and institutions, art and literature, imported from elsewhere. In this work Beasley, a leading authority on Japan and the author of a number of acclaimed works on Japanese history, examines the changing society and culture of Japan and considers what, apart from the land and the people, is specifically Japanese about the history of Japan.

The arrival of Buddhism in the sixth century brought a substantially Chinese-style society to Japan, not only in religion but in political institutions, writing system, and the lifestyle of the ruling class. By the eleventh century the Chinese element was waning and the country was entering a long and essentially "Japanese" feudal period—with two rulers, an emperor and a Shogun—which was to last until the nineteenth century. Under the Togukawa shogunate (1600-1868), Chinese culture enjoyed something of a renaissance, though popular culture owed more to Japanese urban taste and urban wealth.

In 1868 the Meiji Restoration brought to power rulers dedicated to the pursuit of national wealth and strength, and Japan became a world power. Although a bid for empire ended in disaster, the years after 1945 saw an economic miracle that brought spectacular wealth to Japan and the Japanese people, as well as the westernization of much of Japanese life.

From reader reviews:

Margarito Rone:

This The Japanese Experience: A Short History of Japan (History of Civilisation) tend to be reliable for you who want to certainly be a successful person, why. The reason of this The Japanese Experience: A Short History of Japan (History of Civilisation) can be one of the great books you must have is usually giving you more than just simple looking at food but feed you actually with information that possibly will shock your preceding knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions at e-book and printed people. Beside that this The Japanese Experience: A Short History of Japan (History of Civilisation) forcing you to have an enormous of experience such as rich vocabulary, giving you trial run of critical thinking that we know it useful in your day action. So , let's have it appreciate reading.

Bertram Staten:

This The Japanese Experience: A Short History of Japan (History of Civilisation) is great guide for you because the content and that is full of information for you who have always deal with world and have to make decision every minute. This kind of book reveal it facts accurately using great organize word or we can claim no rambling sentences in it. So if you are read the item hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but difficult core information with wonderful delivering sentences. Having The Japanese Experience: A Short History of Japan (History of Civilisation) in your hand like keeping the world in your arm, info in it is not ridiculous one particular. We can say that no e-book that offer you world inside ten or fifteen minute right but this publication already do that. So , this really is good reading book. Heya Mr. and Mrs. hectic do you still doubt which?

Ronald Tanaka:

As a university student exactly feel bored to reading. If their teacher asked them to go to the library or even make summary for some guide, they are complained. Just little students that has reading's heart and soul or real their pastime. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this The Japanese Experience: A Short History of Japan (History of Civilisation) can make you feel more interested to read.

Gloria Engstrom:

A lot of people said that they feel bored when they reading a reserve. They are directly felt this when they

get a half portions of the book. You can choose typically the book *The Japanese Experience: A Short History of Japan (History of Civilisation)* to make your own reading is interesting. Your current skill of reading proficiency is developing when you including reading. Try to choose very simple book to make you enjoy to read it and mingle the idea about book and reading especially. It is to be initially opinion for you to like to open a book and read it. Beside that the book *The Japanese Experience: A Short History of Japan (History of Civilisation)* can to be your brand-new friend when you're feel alone and confuse using what must you're doing of that time.
