Editorial Review

Review

Instructor's Manual, Student Solutions Manual and Computerized Test Bank available. -- *The publisher, John Wiley & Sons*

From the Publisher

A classic Wiley offering considered to be one of the most outstanding calculus textbooks. It has a terse and elegant mathematics presentation which appeals to those who are interested in leanness in exposition. The focus is on three basic concepts--limit, derivative and integral. Student-friendly, the book's mathematical statements are careful and precise and all important theorems are proved. This expanded edition incorporates modern technology and current trends without sacrificing its acknowledged strengths. Includes many examples and exercises.

Users Review

From reader reviews:

Nathan Ware:

Information is provisions for people to get better life, information today can get by anyone at everywhere. The information can be a understanding or any news even an issue. What people must be consider whenever those information which is inside the former life are hard to be find than now is taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you obtain the unstable resource then you understand it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take Calculus: One Variable as your daily resource information.

Randall Blake:

Reading a e-book can be one of a lot of action that everyone in the world adores. Do you like reading book so. There are a lot of reasons why people enjoy it. First reading a publication will give you a lot of new details. When you read a publication you will get new information simply because book is one of many ways to share the information as well as their idea. Second, reading through a book will make you actually more imaginative. When you reading a book especially fiction book the author will bring you to imagine the story how the figures do it anything. Third, you are able to share your knowledge to other folks. When you read this Calculus: One Variable, you could tells your family, friends in addition to soon about yours publication. Your knowledge can inspire average, make them reading a guide.

Ida Johnson:

Reading a reserve tends to be new life style within this era globalization. With studying you can get a lot of information that could give you benefit in your life. Together with book everyone in this world may share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire their very own reader with their story or maybe their experience. Not only the storyline that share in the textbooks. But also they write about the data about something that you need example. How to get the good score toefl, or how to teach your

kids, there are many kinds of book that you can get now. The authors on this planet always try to improve their talent in writing, they also doing some exploration before they write to their book. One of them is this Calculus: One Variable.

Joel Newsom:

Many people spending their period by playing outside along with friends, fun activity along with family or just watching TV all day every day. You can have new activity to invest your whole day by reading through a book. Ugh, you think reading a book can definitely hard because you have to take the book everywhere? It alright you can have the e-book, getting everywhere you want in your Cell phone. Like Calculus: One Variable which is getting the e-book version. So , why not try out this book? Let's notice.
