Soon the two kids are at the dragon's beck and call, trying to figure out what to feed her. An Internet search leads them to the library, which leads them back to the Internet, where they find a very strange Web site called foundadragon.org. Here the cousins discover that the dragon's hatching has designated them "Dragon Keepers." Editorial Review

From School Library Journal

Grade 3–6—While looking for rocks with his cousin Daisy, Jesse finds a "thunder egg" that talks to him. Like the genie in the bottle, something says, "Let me out!" Thus begins the children's adventure. Jesse's parents are away on a mission trip, setting up a clinic in Tanzania. His aunt is off to Paris for an ad shoot, so Uncle Joe, Daisy, and Jesse have to deal with the rock/egg. After a dragon hatches, it needs to be fed—and finding out what to feed a dragon can be tough. What else? Google. Unfortunately, googling dragons, and even dragon food, results in millions of hits, so the cousins head to the library and find a listing for *The Dragon Keeper's Guide*. It's long out of print, but when they google the author's name, they are able to make contact with www.foundadragon.org and learn that dragons need calcium. The computer becomes interactive, and the cousins find the author talking to them, advising them of their new responsibilities and warning them to look out for Saint George. Illustrated with small black-and-white drawings to introduce each of the 11 chapters, this novel, with its unique and modern twists, is a great addition to the dragon genre for younger readers.—*Debbie Whitbeck, West Ottawa Public Schools, Holland, MI*
