How to Do Your Research Project: A Guide for Students in Medicine and The Health Sciences By Caroline Beardsmore

Getting involved in medical and biomedical research through necessity or personal choice can be a testing experience. Each step of the process brings its own challenges, from liaising with supervisors, to the lack of opportunities to promote completed research.

This brand new *How to* provides a complete guide to the process: from the planning stages, to execution, write-up, preparation for the viva examination, and how to maximise the impact of your research. It ensures you get the most out of the experience, both in terms of personal development and academic achievement, and even provides guidance on what to do when things don't quite go to plan.

An ideal companion, written by an experienced postgraduate tutor, this concise and user-friendly manual is full of practical exercises, key points, and hints and tips, which will give you the edge when dealing with the more elusive realities of medical and healthcare research.
