### Math Puzzles and Games, Grades 6-8: Over 300 Reproducible Puzzles that Teach Math and Problem Solving By Terry Stickels

Number puzzles, spatial/visual puzzles, cryptograms, Sudoku, Kokuro, logic puzzles, and word games like Frame Games are all a great way to teach math and problem-solving skills to elementary and middle school students. In these two new collections, puzzle master Terry Stickels provides puzzles and brain games that range from simple to challenging and are organized by grade level and National Council of Teachers of Mathematics (NCTM) content areas. Each book offers over 300 brain games that will help students learn core math concepts and develop critical thinking skills. The books include a wide range of puzzle types and cover a variety of math topics, from fractions and geometry to probability and algebra.

### Math Puzzles and Brainteasers

#### GRADES 6-8

#### Over 300 Puzzles that Teach Math and Problem-Solving Skills

Number puzzles, cryptograms, logic puzzles, and word games make teaching math and problem-solving skills a snap! Written by master puzzle creator Terry Stickels, *Math Puzzles and Brainteasers* is a collection of over 300 reproducible puzzles that have been especially created for students in grades 6-8. Ranging from easy logic challenges to more difficult math brainteasers, all the book's puzzles are organized into groups that correspond to national math content standards. The range of puzzles incorporates multiple approaches to skill building, including numerical manipulation, spatial/visual exercises, and language arts exercises.

Teachers can use this comprehensive compilation of puzzles as warm-up exercises, questions for team competition, group problem-solving exercises, or just for fun!

#### PRAISE FOR MATH PUZZLES AND BRAINTEASERS

"Terry Stickels, well known as a master creator of puzzles for adults, has turned his attention to brainteasers for youngsters. His two books for children are superb collections of such problems. Like Goldilocks' third bed, they are neither too hard nor too soft, but just right. And I suspect that many parents will find themselves hooked on solving some of Terry's puzzles, especially his delightful frame problems."

—**MARTIN GARDNER**, puzzle creator and author

"This is a rich set of diverse mathematical problems that can enrich a math class, stimulate children to play with mathematical ideas, or give gifted children a chance to solve interesting problems that lie beyond the limits of most school mathematical curricula."

—**MICHAEL SCHIRO**, associate professor, Mathematics Education, Boston College

"I've always found puzzles to be great mental stimulators for kids, and Terry Stickels' varied, entertaining brainteasers are perfect for this purpose."

—**WILL SHORTZ**, crossword editor, *The New York Times*

#### About the Author

**TERRY STICKELS** is a well-known puzzle creator and the author of many puzzle books, such as *Classic Mind Benders* and *The Little Book of Bathroom Sudoku*. He writes three syndicated columns: *Frame Games* in USA Weekend magazine, *Stickelers*, syndicated by King Features, and *Stickdoku*, a sudoku puzzle in USA Weekend magazine. He is also a frequent presenter for corporate and education clients around the country. Visit his web site at [www.terrystickels.com](http://www.terrystickels.com).

### Users Review

#### From reader reviews:

**Ella Butler:**

With other case, little folks like to read book Math Puzzles and Games, Grades 6-8: Over 300 Reproducible Puzzles that Teach Math and Problem Solving. You can choose the best book if you love reading a book. Provided that we know about how is important the book Math Puzzles and Games, Grades 6-8: Over 300 Reproducible Puzzles that Teach Math and Problem Solving. You can add information and of course you can around the world by a book. Absolutely right, due to the fact from book you can know everything! From your country right up until foreign or abroad you will find yourself known. About simple point until wonderful thing you are able to know that.
