Psychology in Practice: Environment By Karon Oliver

Psychology in Practice is the definitive six-part series on the practical applications of psychology to areas of everyday life, overcoming crime, education, health, sport organizations and the environment. Each book in the series examines one unit of the *Applications of Psychology* section of the OCR Syllabus. The social, political and human issues of how we live and interact are integral to the development of modern society. As the world population increases, questions of urban planning, renewal and housing design have become vitally important. *Psychology in Practice: Environment* offers a unique insight into a range of social and environmental issues including the psychology of collective behavior, crowding and personal space, architecture, climate and environmental cognition.
