### Augustus and the Creation of the Roman Empire: A Brief History with Documents (Bedford Series in History & Culture) By Ronald Mellor

During his long reign of near-absolute power, Caesar Augustus established the *Pax Romana*, which gave Rome two hundred years of peace and social stability, and established an empire that would endure for five centuries and transform the history of Europe and the Mediterranean. Ronald Mellor offers a collection of primary sources featuring multiple viewpoints of the rise, achievements, and legacy of Augustus and his empire. His cogent introduction to the history of the Age of Augustus encourages students to examine such subjects as the military in war and peacetime, the social and cultural context of political change, the reform of administration, and the personality of the emperor himself. Document headnotes, a list of contemporary literary sources, a glossary of Greek and Latin terms, a chronology, questions for consideration, and a selected bibliography offer additional pedagogical support.

### Editorial Review

#### Review

"Mellor's historical narrative is a masterpiece, a lucid page-turner that covers the most important aspects of Augustus and his principate. . . . Because it employs the actual words of participants and writers closer to the events and personalities reported, this book is an essential foundation for the study of the Augustan principate."--Daniel H. Garrison, Northwestern University

"The choice of readings is judicious and creative, combining traditional literary texts with a representative selection of legal and inscriptional documents. These provide opportunity to investigate not only the information conveyed but the different character of our various written sources for the period. Indeed, one of the book's chief virtues is the way it opens issues for productive classroom discussion."--John Bodel, Brown University
