**Topological Spaces: Including a Treatment of Multi-Valued Functions, Vector Spaces and Convexity (Dover Books on Mathematics)** By Claude Berge, Mathematics

Set topology, the subject of the present volume, studies sets in topological spaces and topological vector spaces; whenever these sets are collections of  $n$ -tuples or classes of functions, the book recovers well-known results of classical analysis. In order to provide a topological tool of equal interest to students of both pure and applied mathematics, this work includes a systematic development of the properties of multi-valued functions. Topics include families of sets, mappings of one set into another, ordered sets, topological spaces, topological properties of metric spaces, mappings from one topological space into another, mappings of one vector space into another, convex sets and convex functions in the space  $\mathbb{R}^n$  and topological vector spaces. To render the expositions more concrete, examples have been included from very different domains. 1963 edition.

### **Editorial Review**

### **Users Review**

#### **From reader reviews:**

#### **Krystal Harris:**

The publication untitled Topological Spaces: Including a Treatment of Multi-Valued Functions, Vector Spaces and Convexity (Dover Books on Mathematics) is the reserve that recommended to you you just read. You can see the quality of the e-book content that will be shown to a person. The language that writer use to explained their way of doing something is easily to understand. The article author was did a lot of investigation when write the book, therefore the information that they share to your account is absolutely accurate. You also might get the e-book of Topological Spaces: Including a Treatment of Multi-Valued Functions, Vector Spaces and Convexity (Dover Books on Mathematics) from the publisher to make you a lot more enjoy free time.

#### **William Keller:**

Are you kind of active person, only have 10 or 15 minute in your day time to upgrading your mind ability or thinking skill possibly analytical thinking? Then you are receiving problem with the book as compared to can satisfy your small amount of time to read it because this all time you only find book that need more time to be learn. Topological Spaces: Including a Treatment of Multi-Valued Functions, Vector Spaces and Convexity (Dover Books on Mathematics) can be your answer mainly because it can be read by an individual who have those short time problems.

#### **Raymond Albanese:**

Reading a book to become new life style in this year; every people loves to examine a book. When you learn a book you can get a great deal of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. If you would like get information about your examine, you can read education books, but if you want to entertain yourself look for a fiction books, these kinds of us novel, comics, along with soon. The Topological Spaces: Including a Treatment of Multi-Valued Functions, Vector Spaces and Convexity (Dover Books on Mathematics) provide you with a new experience in studying a book.

#### **Pearl Dyson:**

As we know that book is very important thing to add our knowledge for everything. By a reserve we can know everything we really wish for. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year had been exactly added. This publication Topological Spaces: Including a Treatment of Multi-Valued Functions, Vector Spaces and Convexity (Dover Books on Mathematics) was filled regarding

science. Spend your extra time to add your knowledge about your research competence. Some people has various feel when they reading a book. If you know how big benefit from a book, you can feel enjoy to read a guide. In the modern era like at this point, many ways to get book that you simply wanted.
