## **Anarchism and Education: A Philosophical Perspective (Routledge International Studies in the Philosophy of Education) By Judith Suissa**

Although there have been a few historical accounts of the anarchist school movement, there has been no systematic work on the philosophical underpinnings of anarchist educational ideas - until now.

*Anarchism and Education* offers a philosophical account of the neglected tradition of anarchist thought on education. Although few anarchist thinkers wrote systematically on education, this analysis is based largely on a reconstruction of the educational thought of anarchist thinkers gleaned from their various ethical, philosophical and popular writings. Primarily drawing on the work of the nineteenth century anarchist theorists such as Bakunin, Kropotkin and Proudhon, the book also covers twentieth century anarchist thinkers such as Noam Chomsky, Paul Goodman, Daniel Guerin and Colin Ward.

This original work will interest philosophers of education and educationalist thinkers as well as those with a general interest in anarchism.
