National Audubon Society Field Guide to North American Wildflowers (Eastern Region) By William A. Niering, Nancy C. Olmstead, Susan Rayfield, Carol Nehring

Nothing is as colorful as a field of wildflowers in full-bloom so what could be more appropriate than a magnificent field guide with beautiful full-color photographs? More than 1,000 species are covered in full detail, with notes on more than 400 others. The 700 identification photographs show wildflowers-including grasses and sedges, and many flowering vines and shrubs-in their natural habitats.

Note: the Eastern Edition generally covers states east of the Rocky Mountains, while the Western Edition covers the Rocky Mountain range and all the states to the west of it.

Editorial Review

Amazon.com Review

This compact guidebook, produced to the National Audubon Society's high standards of quality, gives full descriptions of more than 650 species found east of the Rocky Mountains, along with notes on several hundred more. The eminently sensible organization relies on first-impression visible characteristics rather than the elaborate keys of some older texts--a format well suited to beginning wildflower enthusiasts. If, for instance, you wanted to identify a long-stemmed, tubular red flower that you found in a grove of loblolly pines, you would first turn to the color plates, find the section devoted to red flowers, find a likely match from the 30-odd choices, and then turn to the text to see that the flower's habitat and range made a good fit, ruling out those species that do not. After a few minutes' looking, you'll have identified a trumpet honeysuckle. Well written and richly illustrated, this peerless guide makes the ideal companion for an expedition to eastern wood or prairie. --*Gregory McNamee*

From the Inside Flap

Nothing is as colorful as a field of wildflowers in full-bloom so what could be more appropriate than a magnificent field guide with beautiful full-color photographs? More than 1,000 species are covered in full detail, with notes on more than 400 others.
