By Ruth Page, David Barton, Johann Wolfgang Unger, Michele Zappavigna

**Researching Language and Social Media: A Student Guide** By Ruth Page, David Barton, Johann Wolfgang Unger, Michele Zappavigna

Social Media is fast becoming a key area of linguistic research. This highly accessible guidebook leads students through the process of undertaking research in order to explore the language that people use when they communicate on social media sites.

This textbook provides:

1. An introduction to the linguistic frameworks currently used to analyse language found in social media contexts
2. An outline of the practical steps and ethical guidelines entailed when gathering linguistic data from social media sites and platforms
3. A range of illustrative case studies, which cover different approaches, linguistic topics, digital platforms, and national contexts

Each chapter begins with a clear summary of the topics covered and also suggests sources for further reading to supplement the initial discussion and case studies. Written with an international outlook, *Researching Language and Social Media* is an essential book for undergraduate and postgraduate students of Linguistics, Media Studies and Communication Studies.

### Editorial Review

#### Review

'Our everyday interest in social media means that different types of language used in a variety of platforms (such as Facebook and Twitter) deserve to be investigated more fully. The authors brilliantly show how this can be done, ranging from the use of ethnographic to corpus linguistic methods. Readers benefit from succinct chapter outlines, relevant case studies, further investigative questions and up-to-date bibliographic references.'

Vincent B Y Ooi, National University of Singapore

*'Researching Language and Social Media* offers a highly accessible, systematic introduction to the language of social media. Clearly structured and abundantly illustrated with practical examples, this valuable research guide is destined to become vital reading for students who wish to conduct research on computer-mediated discourse. Highly recommended!'

Christian Hoffmann, University of Augsburg, Germany

*'Researching Language and Social Media* is the first of its kind: it is an essential primer for those who study how language, literacy, writing, and discourse operate not just within social media contexts but across them, too. As an internet researcher and digital literacies specialist, this is the book I've been waiting for. I plan to use it for my own scholarship and as a key text in both undergraduate and graduate research courses for many years to come.'

Alice Daer, Arizona State University, USA
