Editorial Review

Review

"Like manufacturing, Medicine has globalized, in search of lower costs for services. But a cheaply-made, second-rate cell phone isn't deadly?shoddy medical care can kill. The promise of medical tourism is bargain liposuction at a sunlit beachside resort in Thailand, but the reality is dark and dangerous in an entirely unregulated marketplace that too often puts profits well above patient well-being. This brave book dissects the realities of medical tourism, and offers bold prescriptions for change and safety." (Laurie Garrett, Senior Fellow for Global Health, Council on Foreign Relations)

"*Risks and Challenges in Medical Tourism* is the first book to help define and move forward our understanding of this area. This excellent, timely volume edited by Hodges, Turner and Kimball, provides a lucid, informative exploration of the ethical, legal, public health and social dimensions of medical tourism and the globalization of medical services. It identifies key gaps in our knowledge and important policy decisions that influence medical tourism." (Dr. Mary Elizabeth Wilson, Harvard School of Public Health)

"Traveling abroad for health care continues to grow, and *Risks and Challenges in Medical Tourism* offers a comprehensive and persuasive treatment of its possible pitfalls and huge potential. With outstanding attention to detail and clarity of presentation, the authors offer candid insight into specific cases across the globe, as well as the broad legal and ethical issues that medical tourism raises. This is a must-read book for all interested in healthcare and medical tourism as it will undoubtedly influence policymakers, health providers, and scholars in both origin and destination countries." (Milica Z. Bookman, co-author of *Medical Tourism in Developing Countries*)

About the Author

Jill Hodges, MPH, MSL, is a writer and editor who explores how globalization affects individuals' lives.

Leigh Turner, PhD, is associate professor at the University of Minnesota's Center for Bioethics, School of Public Health, and College of Pharmacy.
