Stopping Power: A Practical Analysis of the Latest Handgun Ammunition

By Evan Marshall, Edwin J. Sanow, EVAN P. MARSHALL

Evan Marshall and Ed Sanow rocked the firearms world with the release of Handgun Stopping Power and Street Stoppers. Both books predicted the effectiveness of all types of ammunition by studying the results of real-life shootings rather than relying on laboratory tests that ignored the dynamics of an actual gunfight. This third book in the series provides the very latest street results of all the major handgun calibers, from .22 LR to .45 ACP, as well as popular rifle and shotgun loads. It also contains chapters on short-barrel ballistics, the emergence of the hot new .357 SIG caliber, the continued success of the .40 S&W, the development of the latest exotic ammo, the effectiveness of black powder firearms and a brand-new ammo test protocol based on the results of the many gunfights of U.S. Border Patrol officers.

Editorial Review

About the Author

Evan Marshall is a Special Weapons and Tactics trainer for a federal agency with counterterrorist responsibilities. He retired from the Detroit Police Department after 20 years of service. His assignments included Tactical Unit, Crime Scene Investigation, Homicide and the Special Response Team. He has trained groups as diverse as the Federal Air Marshals and the U.S. Army Special Reaction Team. His articles on ammunition, ballistics and tactics have appeared in the law enforcement and firearms press over the past 25 years.

Cpl. Ed Sanow is the senior reserve deputy and a 14-year veteran with the Benton County, Indiana, Sheriff's Department. He is a Team Leader with the Benton County Multiagency Response Team and the field training officer for the reserve force. Sanow is the author of more than 1,000 articles on ammunition and stopping power. In October 2000, he became the editor of Law and Order magazine

Users Review

From reader reviews:

Francis Mason:
