### Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey)

By Michel Bruneau, Chia-Ming Uang, S.E., Rafael Sabelli

#### Comprehensive coverage of the background and design requirements for plastic and seismic design of steel structures

Thoroughly revised throughout, *Ductile Design of Steel Structures*, Second Edition, reflects the latest plastic and seismic design provisions and standards from the American Institute of Steel Construction (AISC) and the Canadian Standard Association (CSA). The book covers steel material, cross-section, component, and system response for applications in plastic and seismic design, and provides practical guidance on how to incorporate these principles into structural design.

Three new chapters address buckling-restrained braced frame design, steel plate shear wall design, and hysteretic energy dissipating systems and design strategies. Eight other chapters have been extensively revised and expanded, including a chapter presenting the basic seismic design philosophy to determine seismic loads. Self-study problems at the end of each chapter help reinforce the concepts presented. Written by experts in earthquake-resistant design who are active in the development of seismic guidelines, this is an invaluable resource for students and professionals involved in earthquake engineering or other areas related to the analysis and design of steel structures.

#### COVERAGE INCLUDES:

- Structural steel properties
- Plastic behavior at the cross-section level
- Concepts, methods, and applications of plastic analysis
- Building code seismic design philosophy
- Design of moment-resisting frames
- Design of concentrically braced frames
- Design of eccentrically braced frames
- Design of steel energy dissipating systems
- Stability and rotation capacity of steel beams

# Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey)

By Michel Bruneau, Chia-Ming Uang, S.E., Rafael Sabelli

**Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey)** By Michel Bruneau, Chia-Ming Uang, S.E., Rafael Sabelli

## **Comprehensive coverage of the background and design requirements for plastic and seismic design of steel structures**

Thoroughly revised throughout, *Ductile Design of Steel Structures*, Second Edition, reflects the latest plastic and seismic design provisions and standards from the American Institute of Steel Construction (AISC) and the Canadian Standard Association (CSA). The book covers steel material, cross-section, component, and system response for applications in plastic and seismic design, and provides practical guidance on how to incorporate these principles into structural design.

Three new chapters address buckling-restrained braced frame design, steel plate shear wall design, and hysteretic energy dissipating systems and design strategies. Eight other chapters have been extensively revised and expanded, including a chapter presenting the basic seismic design philosophy to determine seismic loads. Self-study problems at the end of each chapter help reinforce the concepts presented. Written by experts in earthquake-resistant design who are active in the development of seismic guidelines, this is an invaluable resource for students and professionals involved in earthquake engineering or other areas related to the analysis and design of steel structures.

### **COVERAGE INCLUDES:**

- Structural steel properties
- Plastic behavior at the cross-section level
- Concepts, methods, and applications of plastic analysis
- Building code seismic design philosophy
- Design of moment-resisting frames
- Design of concentrically braced frames
- Design of eccentrically braced frames
- Design of steel energy dissipating systems
- Stability and rotation capacity of steel beams

### **Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey) By Michel Bruneau, Chia-Ming Uang, S.E., Rafael Sabelli Bibliography**

- Sales Rank: #766273 in Books
- Published on: 2011-08-04
- Original language: English
- Number of items: 1
- Dimensions: 9.30" h x 2.05" w x 6.30" l, 2.95 pounds

- Binding: Hardcover
- 928 pages

## **Editorial Review**

### About the Author

**Michel Bruneau, P.E., P.Eng.**, is Professor in the Department of Civil, Structural, and Environmental Engineering at the State University of New York at Buffalo, and an ASCE Fellow. He is a member of various AISC and CSA committees developing seismic design specifications for bridges and buildings. Dr. Bruneau has conducted extensive research on the evaluation and retrofit of existing steel structures subjected to large destructive forces. He has authored more than 400 technical publications and has received many awards for his work.

**Chia-Ming Uang, Ph.D.**, is Professor in the Department of Structural Engineering at the University of California, San Diego. A member of the AISC's Committee on Specification and Committee on Research, he received the AISC Special Achievement Award in 2007. Dr. Uang has authored numerous articles on seismic behavior and design of steel structures.

**Rafael Sabelli, S.E.**, is a Principal and Director of Seismic Design at Walter P. Moore and Associates, Inc., and was President of the Structural Engineers Association of California from 2009 to 2010. He is a member of the AISC Task Committee on the Seismic Provisions for Structural Steel Buildings and the ASCE 7 Seismic Subcommittee. Mr. Sabelli is the coauthor of AISC Design Guide 20: Steel Plate Shear Walls as well as of numerous research papers on conventional and buckling-restrained braced frames.

## **Users Review**

### **From reader reviews:**

#### **Pauline Jefferson:**

Have you spare time to get a day? What do you do when you have far more or little spare time? Yeah, you can choose the suitable activity with regard to spend your time. Any person spent their own spare time to take a walk, shopping, or went to the Mall. How about open or maybe read a book called Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey)? Maybe it is for being best activity for you. You realize beside you can spend your time with the favorite's book, you can smarter than before. Do you agree with it is opinion or you have different opinion?

#### **Frank Hall:**

Do you have something that you like such as book? The publication lovers usually prefer to select book like comic, limited story and the biggest you are novel. Now, why not trying Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey) that give your pleasure preference will be satisfied by simply reading this book. Reading practice all over the world can be said as the method for people to know world considerably better than how they react in the direction of the world. It can't be claimed constantly that reading practice only for the geeky man or woman but for all of you who wants to become success person. So, for all of you who want to start looking at as your good habit, you are able to pick Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey) become your own starter.

**James Brown:**

Do you like reading a publication? Confuse to looking for your selected book? Or your book had been rare? Why so many query for the book? But just about any people feel that they enjoy to get reading. Some people likes reading, not only science book but in addition novel and Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey) as well as others sources were given knowledge for you. After you know how the good a book, you feel want to read more and more. Science publication was created for teacher or students especially. Those guides are helping them to include their knowledge. In other case, beside science publication, any other book likes Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey) to make your spare time much more colorful. Many types of book like here.

**Nathaniel Marvel:**

A lot of reserve has printed but it differs. You can get it by world wide web on social media. You can choose the most effective book for you, science, comedian, novel, or whatever simply by searching from it. It is identified as of book Ductile Design of Steel Structures, 2nd Edition (P/L Custom Scoring Survey). You can include your knowledge by it. Without leaving behind the printed book, it may add your knowledge and make you actually happier to read. It is most essential that, you must aware about guide. It can bring you from one location to other place.
