Giants of the Frost By Kim Wilkins

Victoria has chosen career over love, but starts to question this decision when she finds herself working at a remote weather research station on a tiny island off the coast of Norway.

In this world of midnight sunshine, the Old Gods still watch the affairs of humanity...and one of them has become fixated on Victoria, certain that she is the reincarnation of a woman he fell in love with over a thousand years before; a love affair which threatened the very existence of Asgard.

Dangerous love and desire are soon running out of control, as the spectacularly supernatural obliterates Victoria's refuge in scientific rationalism.

When she joins a weather team on a Scandinavian island, Victoria stumbles upon the dark and mystical realm of the Norse Gods. Vidar, the son of Odin, pursues Victoria as she grapples with her identity and beliefs. Edwina Wren delivers a strong performance with steady accents and significant shifts in tone for the different characters. Her voicing of the mysterious Vidar is particularly compelling. Light music serves to segue from one section to the next. Though Wren's accents for the gods are superfluous, since they actually speak their own language (translated into English for listeners), her Scandinavian accent for the humans is alluring.
